

# ZEISS Symposium: FUSION 2010

## Complete Solutions in Cataract & Refractive Surgery

In the face of growing patient expectations for perfect vision, we are often presented with the challenge of finding the best solution possible to produce the most successful outcome for the patient.

It is with pleasure that we invite you to join us on this occasion to meet with your colleagues, who will be sharing their experiences with a variety of our new micro-incision and toric lenses, ocular viscoelastic devices and advanced refractive technologies, all of which are a part of our complete solution.

Come and be a part of the solution during FUSION 2010.

 Dr. Wolfgang Haigis Professor University of Wuerzburg Germany	 Dr. John Males Level 12, 187 Macquarie St Sydney New South Wales Australia	 Dr. Nitin Verma Hobart Eye Surgeons Tasmania Australia	 Dr. Patrick Versace Vision Eye Institute New South Wales Australia	 Prof. Donald Tan Medical Director Singapore National Eye Centre Singapore
